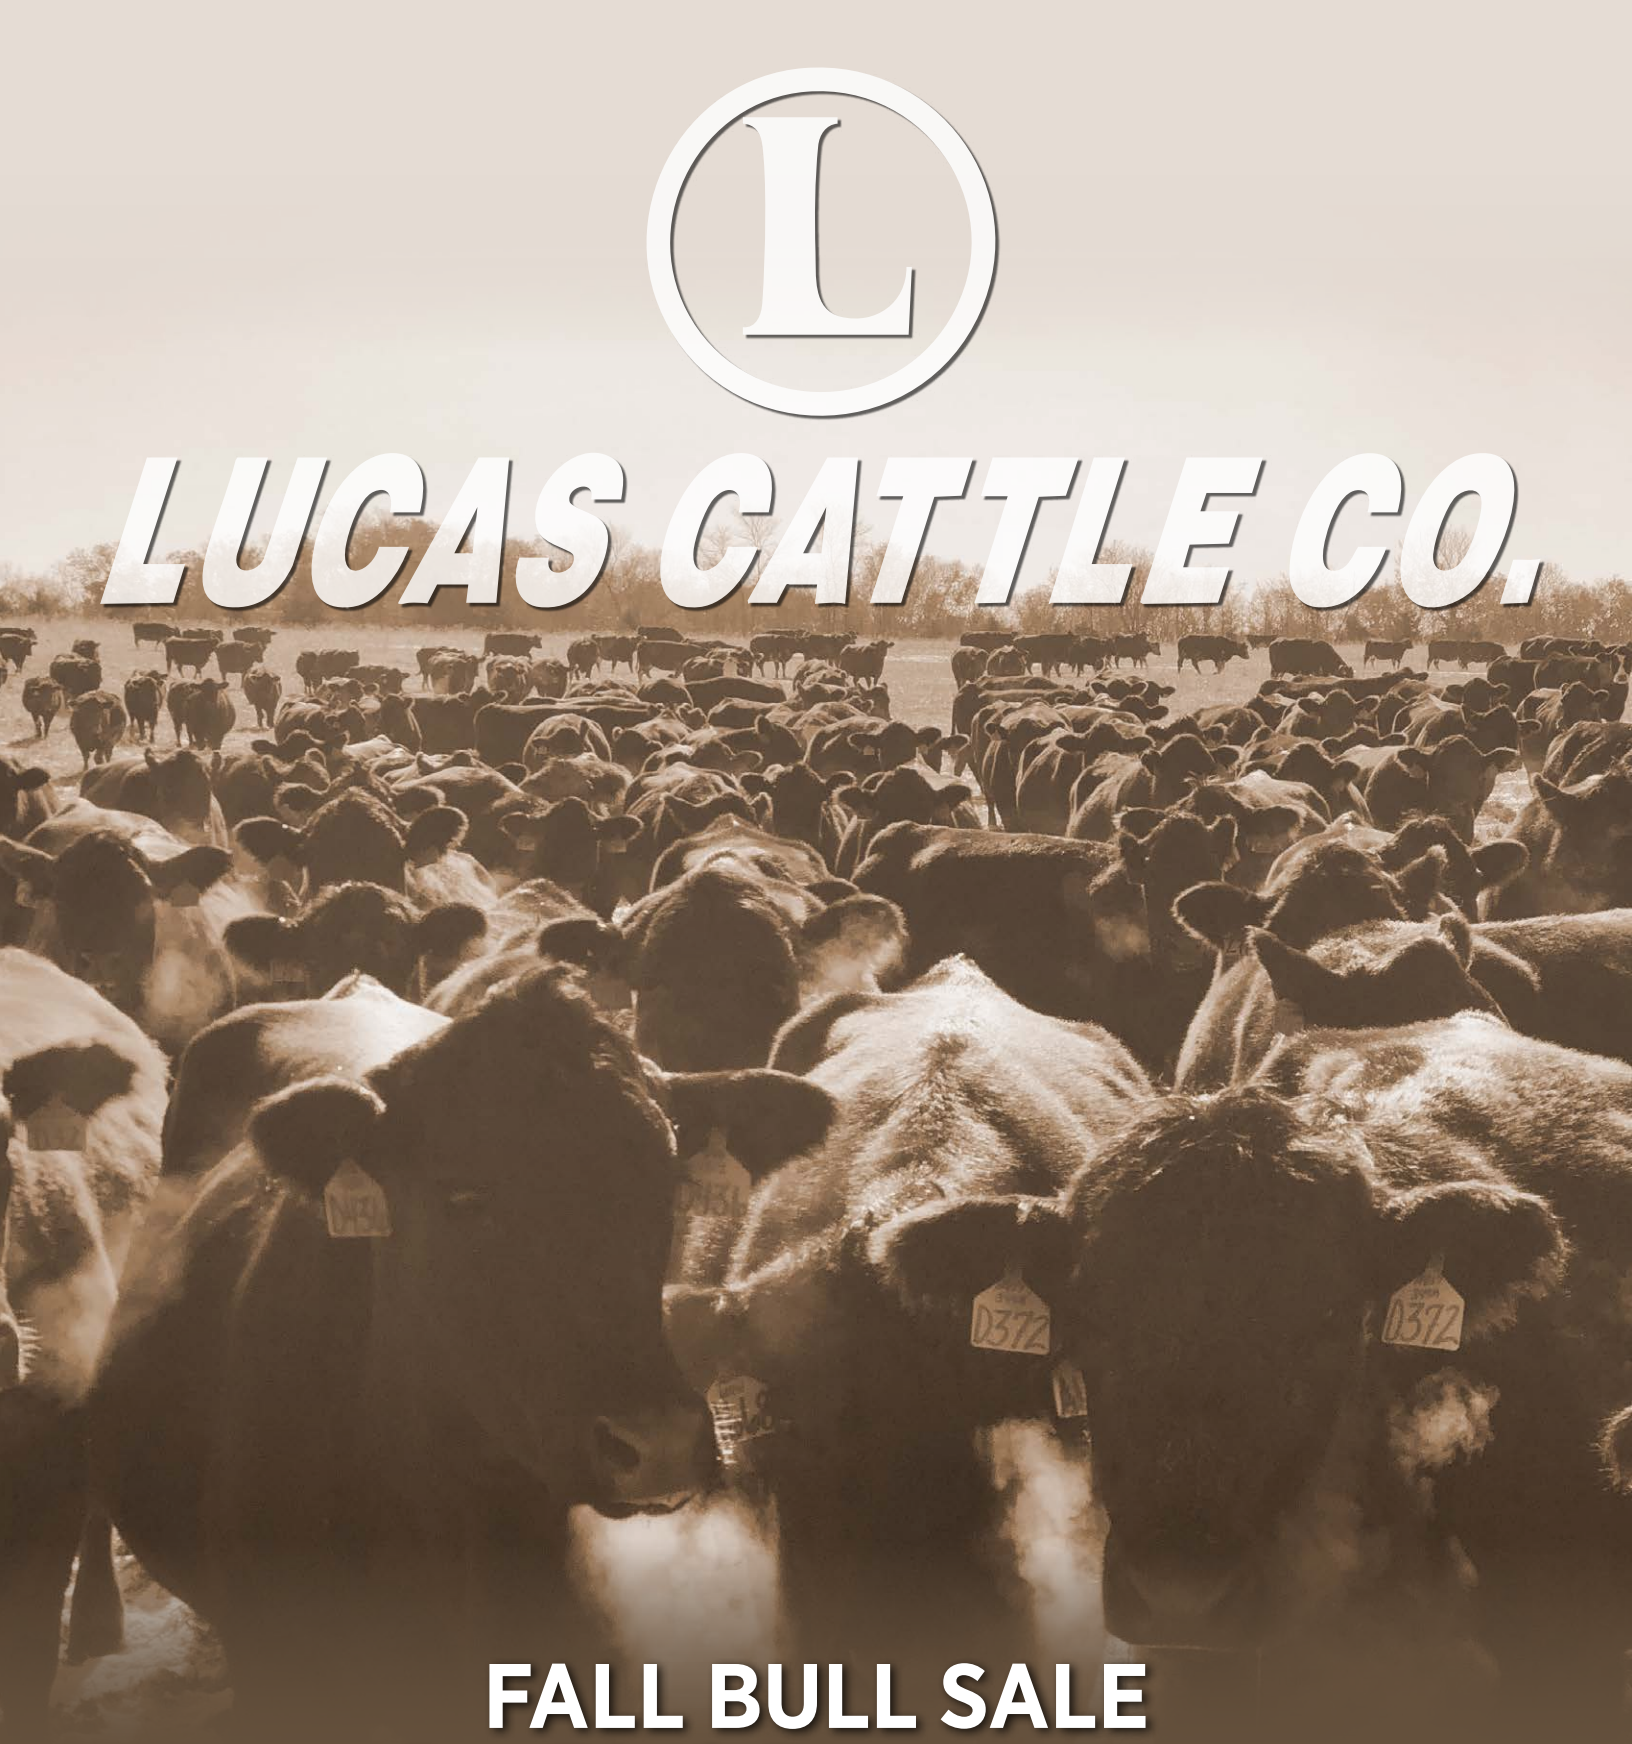
LUCAS CATTLE CO.



FALL BULL SALE

- OCTOBER 3 -

100 SIMANGUS AND SIMMENTAL BULLS - 40 LUCAS-BRED COMMERCIAL SPRING CALVING HEIFERS

1:00 PM AT LUCAS CATTLE COMPANY IN CROSS TIMBERS, MISSOURI

WELCOME

As the fall season settles in, we welcome you to the 2026 Fall Performance Bull & Female Online Sale—an offering built around the cow families whose influence continues to shape the heart of our program. This year's lineup reflects a program advancing with clear direction, grounded in disciplined selection, strengthened by the maternal power of our leading cow families, and focused on producing cattle that deliver real world value for commercial and seedstock producers alike. The depth, consistency, and purpose represented here define Lucas Cattle Company.

Forrest's influence remains woven into every part of this ranch. His belief that great cattle start with great cows continues to guide our decisions, our priorities, and the direction of this program. The standards he set—integrity, performance, and long term value—remain the foundation of Lucas Cattle Company.

This year's sale showcases the strength and reach of the donor cow families that define our herd. The bulls and females selling this fall are direct progeny of the cows whose influence continues to shape our identity—Sugar, Evita, Ginny, and the daughters who carry their strength forward. Their consistency, maternal quality, and ability to generate cattle with meaningful performance remain the cornerstone of our breeding philosophy. The quality in this offering reflects those cow families and the years of intentional selection behind them.

Our team continues to work with the same dedication and attention to detail that Forrest expected and our customers deserve. Their commitment ensures that every calf, every pasture, and every sale reflects the values that built this program and the direction we are proud to continue. Whether you are a longtime partner or joining us for the first time, thank you for your interest in our program. We are honored to earn your trust and look forward to helping you build toward your own goals with confidence.

Warm regards,
Charlotte Lucas, Owner
Jamie Devney, President, Lucas Cattle Company & Lucas Oil Speedway

SALE REPRESENTATIVES.

Brady Hagler, Special Assignment	785-893-1604
Marty Ropp, Allied Genetic Resources	406-581-7835
Corey Wilkins, Allied Genetic Resources	256-590-2487
Jared Murnin, Allied Genetic Resources	406-321-1542

REGISTRATION AND UPDATED EPDs.
All cattle will be registered in the American Simmental Association. All EPDS are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

BREEDING GUARANTEE.
We stand behind all of our bulls and want you to be satisfied, so let us know as soon as possible if there are any problems. Scrotal measurements are actual (not adjusted) as reported at the time of fertility exam, and will be listed on the supplement sheet on sale day. All of our bulls have passed a fertility soundness exam unless indicated on the sale block. All bulls are guaranteed breeding sound. Come with a standard 90 day breeding season guarantee at the onset of breeding season.

ANNOUNCEMENTS.
Announcements made sale day take precedence over printed material in the sale book or other printed material associated with the sale.

$200 credit per customer for picking up bulls on sale day.

FROM THE SALE MANAGER

ALLIED GENETIC RESOURCES

Cattlemen we hope you can join October 3rd in Cross Timbers, MO for an incredible offering of genetics Lucas Cattle Company has assembled for you. The offering is filled from cover to cover with bulls who offer genetic progress on traits of relevance to the cattle industry. The dedication and advancement specifically in the embryo transfer program has taken the Lucas program to new heights at a very rapid pace. The Jade 2J, Sugar C4 and J107 donor dams and leading the charge in the industry as some of the very best females in the Simmental business. We hope that you will take the time to study the bulls in person. The crew at Lucas does an incredible job of developing bulls with customer success in mind. The attention to detail and commitment to customer success is rivaled by few in the business.

The commodity beef prices have recently gone through some turmoil in recent weeks with outside interference. However, the fundamentals still remain the same we have the shortest supply of females in history and the consumer has shown strong support for quality US beef. As margins tighten sourcing the best genetics who offer improvement on a magnitude of traits along with strong health protocols will be a key factor in differentiating your feeder cattle and cowherd.

Once again, we highly encourage you to make the trip to Cross Timbers. If you can not be with us sale weekend, be sure to catch the sale on our friends at Dvauction.com. If you have any questions regarding the sale please do not hesitate to reach out to the team.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

Improved Buying Confidence with Greater Genomic ASSURANCE

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

HOMELAND SIRE OF LOTS 26-32.

Attractive herd bulls with added stoutness and performance sums up a nice group of Homeland sons who will headline our 2026 sale. The cattle are striking for balance study with extra shape over their top and from behind. The Homeland sons have become the industry choice to add mass, power, and maternal greatness. The Homeland daughters are some of the industry's best so expect strong maternal traits.

ACE SIRE OF LOTS 33-39.

Ace is a bull we have used to make some SimAngus bulls in our program for the last several years. The cattle fit and work so well in our environment. Expect these massive herd bulls to be hair shedding improvers, study with extra dimension and leave behind incredible daughters.

ANTHEM SIRE OF LOTS 90, 91, 93, 94.

Powerful purebred bulls can be found in a powerful lineup of Anthem sons we have to offer. They will provide the extra punch of stoutness and payweight associated with high percentage cattle. If you are looking for growth and enhancing terminal traits look no further.

ASA QUICK REFERENCE TO EPDS, INDEXES AND $VALUES

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and $ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.
BACK FAT (BF): Inches of carcass backfat at 475 days.
BIRTH WEIGHT (BW): Pounds of birth weight.
CALVING EASE (CE): Percent of unassisted births when used on heifers.
CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.
DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).
MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.
MILK (MLK): Pounds of weaning weight due to milk.
MARBLING (MARB): Carcass marbling score at 475 days.
MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.
RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.
TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.
WEANING WEIGHT (WW): Pounds of weaning weight.
YEARLING WEIGHT (YW): Pounds of yearling weight.
YIELD GRADE (YG): Carcass yield grade score at 475 days.

$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where $ indexes come in. Through well-conceived, rigorous mathematical computation, $ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following $ indexes:
ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and $indexes, visit: www.simmental.org

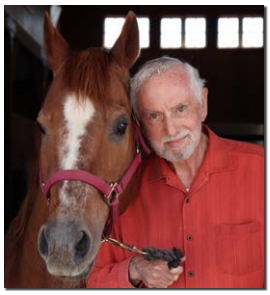
LUCAS PERFORMANCE HORSES

A TRADITION OF EXCELLENCE.



Following in the tradition of Lucas Oil Products and Lucas Cattle Company, Forrest and Charlotte Lucas are proud to announce Lucas Performance Horses.

Forrest and Charlotte Lucas are not strangers to excellence. They brought the nation some of the finest oil products on the market. Over the last 25 years, the Lucas family and Lucas Cattle Company have also curated a large and successful herd of SimAngus and Simmental Cattle. With these same goals in mind, Lucas Performance Horses is committed to breeding high quality performance horses for the cutting, reined cow horse, and ranch horse markets.

THE BEST TOOLS IN MY SHOP

People are keeping their cars longer than ever. They want those older cars to run smooth and strong, despite their age. Lucas Oil Products are created to solve or prevent common mechanical problems in all vehicles, meaning older cars can run like new.

Power and efficiency for the long road ahead.
