

LUCAS CATTLE CO.

SPRING BULL SALE

- APRIL 11 -

85 SIMANGUS AND SIMMENTAL BULLS - 50 LUCAS-BRED COMMERCIAL FALL CALVING HEIFERS
PICK OF 5 ELITE OPEN HEIFERS

1:00 PM AT LUCAS CATTLE COMPANY IN CROSS TIMBERS, MISSOURI

WELCOME

As we welcome you to the 2026 Spring Performance Bull & Female Online Sale, we do so with deep appreciation for the customers, partners, and friends who continue to shape Lucas Cattle Company. This year's offering reflects a program moving confidently forward—rooted in the vision Forrest built, and driven by a commitment to genetic progress, disciplined selection, and long term customer success.

Forrest believed that excellence starts with the cow, and that belief continues to guide every decision we make. His influence is present in the land, the cattle, and the people who work tirelessly to advance this program. While his absence is felt every day, the direction he set for Lucas Cattle Company remains clear: build cattle with purpose, performance, and integrity, and build relationships that last. We are proud to carry that mission forward.

This year's sale represents one of the most exciting steps in that journey. We are offering the first bull crop out of ADV Miss Genesis J1017 (Ginny), a young donor whose impact is already turning heads. Her first natural bull calf sold for \$95,000 at Wagonhammer Ranches to River Creek Farms of Manhattan, Kansas—a testament to the power, consistency, and future potential she brings to our program. The sons selling this spring carry that same genetic punch, and we believe they will play a meaningful role in advancing her influence across the breed.

Alongside the Ginny progeny, you will find the continued strength of cow families that have shaped our identity—Sugar, Louise, Evita, and others whose legacy continues through their daughters, granddaughters and sons. Their consistency, maternal quality, and performance remain cornerstones of our breeding philosophy.

We are grateful for the dedication of our team, whose commitment ensures that every detail of this operation reflects the standards Forrest set and the expectations our customers deserve. Whether you are a longtime partner or joining us for the first time, thank you for your interest in our program. We are honored to earn your trust and look forward to helping you build toward your own goals with confidence.

Warm regards,
Charlotte Lucas, Owner
Jamie Devney, Lucas Cattle Company & Lucas Oil Speedway

SALE REPRESENTATIVES.

Brady Hagler, Special Assignment	785-893-1604
Marty Ropp, Allied Genetic Resources	406-581-7835
Corey Wilkins, Allied Genetic Resources	256-590-2487
Jared Murnin, Allied Genetic Resources	406-321-1542

REGISTRATION AND UPDATED EPDs.

All cattle will be registered in the American Simmental Association. All EPDs are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

BREEDING GUARANTEE.

We stand behind all of our bulls and want you to be satisfied, so let us know as soon as possible if there are any problems. Scrotal measurements are actual (not adjusted) as reported at the time of fertility exam, and will be listed on the supplement sheet on sale day. All of our bulls have passed a fertility soundness exam unless indicated on the sale block. All bulls are guaranteed breeding sound. Come with a standard 90 day breeding season guarantee at the onset of breeding season.

ANNOUNCEMENTS.

Announcements made sale day take precedence over printed material in the sale book or other printed material associated with the sale.

\$200 credit per customer for picking up bulls on sale day.

FROM THE SALE MANAGER

Welcome to the 2026 Lucas Cattle Company Bull Sale in Cross Timbers, Missouri. The cattle business has been very rewarding in 2026. We, along with the crew at Lucas, find tremendous joy when customers find success. We hope the record-breaking prices will be here to stay for years to come.

The thought and perseverance in elevating the Lucas Cattle Company's genetics have paid great dividends. The program worked tirelessly in identifying the very best donor dams the Simmental business has to offer. Their effort and work have resulted in an incredible offering of bulls. The genetic value and type that the embryo program has produced place this selection of bulls in rare air. Producers can get the total package at Lucas Cattle Company. Loads of genetic horsepower, pleasing phenotype, and bulls who are adapted to the challenges the fescue belt brings to cattle producers. If you have not had a chance to make the trip to Lucas, we highly encourage you to make the trip. The bulls are developed perfectly for commercial producers and have the genetic value to increase profitability for commercial cattle producers.

Along with a first-class offering of bulls, the female division of the Lucas program continues to gain popularity. The commercial offering of females comes from one of the nation's largest commercial programs in the country at Lucas Cattle Company. These females are built to thrive on fescue and are layered with generations of great Lucas genetics. The registered division showcases an opportunity for front-end donors for registered breeders.

Please make plans to join us April 11th in Cross Timbers. If you have any questions regarding the sale or if we can be of any assistance, please do not hesitate to reach out.

Sincerely,
Marty Ropp, Corey Wilkins and Jared Murnin

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ASA QUICK REFERENCE TO EPDS, INDEXES AND \$VALUES

EXPECTED PROGENY DIFFERENCES (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org.

Listed below are the units in which ASA EPDs are expressed:

ALL-PURPOSE INDEX (API): Dollars per cow exposed under an all-purpose-sire scenario.

BACK FAT (BF): Inches of carcass backfat at 475 days.

BIRTH WEIGHT (BW): Pounds of birth weight.

CALVING EASE (CE): Percent of unassisted births when used on heifers.

CARCASS WEIGHT (CW): Pounds of carcass weight at 475 days.

DOCILITY (DOC): Percent of offspring receiving a disposition score of 1 (docile).

MATERNAL CALVING EASE (MCE): Percent of unassisted births in first-calving daughters.

MILK (MLK): Pounds of weaning weight due to milk.

MARBLING (MARB): Carcass marbling score at 475 days.

MATERNAL WEANING WEIGHT (MWW): Pounds of weaning weight due to milk and growth.

RIBEYE AREA (REA): Square inches of carcass ribeye at 475 days.

TERMINAL INDEX (TI): Dollars per cow exposed under a terminal-sire scenario.

WEANING WEIGHT (WW): Pounds of weaning weight.

YEARLING WEIGHT (YW): Pounds of yearling weight.

YIELD GRADE (YG): Carcass yield grade score at 475 days.

\$ INDEXES: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

ALL-PURPOSE INDEX (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TERMINAL INDEX (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

For more detailed information about EPDs and \$ indexes, visit www.simmental.org

LUCAS

PERFORMANCE HORSES

A TRADITION OF EXCELLENCE.

Following in the tradition of Lucas Oil Products and Lucas Cattle Company, Forrest and Charlotte Lucas are proud to announce Lucas Performance Horses.

Forrest and Charlotte Lucas are not strangers to excellence. They brought the nation some of the finest oil products on the market. Over the last 25 years, the Lucas family and Lucas Cattle Company have also curated a large and successful herd of SimAngus and Simmental Cattle. With these same goals in mind, Lucas Performance Horses is committed to breeding high quality performance horses for the cutting, reined cow horse, and ranch horse markets.

THE BEST TOOLS IN MY SHOP

People are keeping their cars longer than ever. They want those older cars to run smooth and strong, despite their age. Lucas Oil Products are created to solve or prevent common mechanical problems in all vehicles, meaning older cars can run like new.

Power and efficiency for the long road ahead.
